

Database

Host: localhost  
Database: finance  
User name: markus  
Table: geographicNE\_Stat

Data

**Data instances:** 3654  
**Features:** date, Adjusted net national income per capita (annual percentage growth), Adjusted net national income per capita (current US), CPI Price, nominal, Central government debt, total (current LCU), Central government debt, total (percentage of GDP), GDP per capita (current US), GDP per capita growth (annual percentage), GNI per capita growth (annual percentage), GNI per capita, Atlas method (current US), GNI per capita, PPP (current international ), Gross portfolio debt liabilities to GDP (percentage), International debt issues to GDP (percentage), Unemployment, total (percentage of total labor force) (modeled ILO estimate), Unemployment, total (percentage of total labor force) (national estimate) (total: 15 features)  
**Meta attributes:** country\_code

National indicators collected from the worldbank

Data

**Instances:** 3654  
**Condition:** country\_code equals FIN

Output

**Matching data:** 21 instances  
**Non-matching data:** 3633 instances

The record set contains 20 records / country. Country is defined by the meta attribute country\_code

Data instances: 21  
Features: 15  
Meta attributes: 1
